

## REMARKS

Claims 17-33 are pending in the application. The Office has rejected claims 17-33 under 35 U.S.C. § 102(e) as being anticipated by Worden (U.S. Pat. Pub. No. 2003/0149934; hereinafter “Worden”). This is a final Office action and is responsive to Applicant's reply filed on or about December 18, 2007. A Request for Continued Examination is being filed with this reply.

### Amendments to the Claims

Applicant requests that the amendments to the claims be entered into this application. No new subject matter has been entered. The application provides support for the amendments e.g., paragraph 23, 25, 34, and Fig. 1, element 16.

### 102(e) Rejection of Independent Claims by Worden

The prior art of record fails to show or suggest all of the current elements of Applicant's claimed invention. For example, Worden does not show or suggest “creating a third data model and a data storage in a data wedge by integrating the first schema and the second schema into the data wedge,” as now required by Applicant.

### 103(a) Rejection of the Dependent Claims

Claims depending from claims 17, 25, and 32 are allowable for at least the same reasons presented above.

### CONCLUSION

Applicant asks that the Office reconsider this application and allow all pending claims. Please charge any fees that might be due, excluding the issue fee, to deposit account 14-0225.

Respectfully submitted,
